DEKKA 500 FULLY AUTOMATIC CASE ERECTOR

Perfect for light manufacturers operating a low-speed automated packaging line

The DEKKA 500 is a heavy duty fully automatic case erector developed for the entry level market. This compact machine is ideal for customers looking to upgrade to automatic machinery with a tight budget and limited floor space. The DEKKA 500 is able to reach speeds of up to 10 cases per minute, perfect for light manufacturers operating a low-speed automated packaging line. It also features a full color touchscreen HMI, operator friendly color coded change handles and pictorial guides and is also optimized for the high performance Dekka tape head, ensuring an effective and reliable case seal.

FEATURES AND BENEFITS

- Entry level automatic case former ideal for applications looking to upgrade from semi-automatic machinery
- WISE System of controls for easy machine operation, on-board machine maintenance and troubleshooting
- Small machine footprint for applications with minimal floor space
- Quick and easy size change with on machine pictorial guides and color coded size change handles
- Deepest service support network across all of North America
